Company believes that sound Corporate Governance is vital to enhance and retain stakeholder trust. Good Governance underpins the success and integrity of the organisation, institutions and markets. It is one of the essential pillars for building an efficient and sustainable environment, systems and practices to ensure that the affairs of the Company are being managed in a way which ensure accountability, transparency, fairness in all its transactions in the widest sense and meeting its stakeholder's aspirations and societal expectations. It is the broad framework which defines the way the Company functions and interacts with its environment. Implementation of good governance indicates not only the compliance of the laws and regulations of the land but also indicates the values, practices and culture of your organisation. As a result, it brings into focus the fiduciary and trusteeship role of the Board to align and direct the actions of the organisation towards creating wealth and stakeholder value. Good Governance ensures that the best corporate practices are followed by a Company.

1. Company's philosophy on Code of Corporate Governance

The philosophy underlying Corporate Governance seeks to create a system of "Checks and Balances" based on transparency, accountability, integrity, clarity and consistency in the dealings of the Company with its stakeholders. We believe that good Corporate Governance emerges from the application of the best and sound management practices and compliance with the laws coupled with the adherence to the highest standards of transparency, accountability and business ethics. Our governance practices are a product of self-desire, reflecting the culture of trusteeship that is deeply ingrained in our value system and reflected in our strategic thought process.

Corporate Governance is a journey for constantly improving sustainable value creation and is an upward moving target with a view to translate opportunities into reality. We believe in abiding by the Code of Governance so as to be a responsible corporate citizen and to serve the best interests of all the stakeholders. The primary objective is to develop and adhere to a corporate culture of harmonious and transparent functioning, increasing employee and client satisfaction and enhancing shareholders' wealth by developing capabilities and identifying opportunities that best serve the goal of value creation.

In line with this philosophy, the Company continuously strives for excellence through adoption of best governance and disclosure practices. Achieving this balance depends upon how accountable and transparent the Company is. Accountability improves decision making.
